Right—I'd lost track of that. At least by phone that would be good to have him at Gasco.... (cc'ing Scott) —it would be nice to have for the public meeting too, but not sure if it's too late to run him out here...

It could be helpful; not sure if necessary, but who knows what these meetings will entail. The outcome of the Gasco mtg could be important.

I think you'd already looked into this... see below.

Sure. If John can attend in person, we can cover it in our scope and budget.

FYI. We put together a Draft slide presentation (attached) **for community consumption (not too technical)** on July 10th and sent that over to Laura for her review/edits yesterday (see attached). It currently doesn't touch on the IRIS update as the topic of the presentation was focused on the Pre-RD Group Sampling Plan. Karen Ekstrom is also currently working on a Draft Fact Sheet for Laura.

Good plan, thanks Karl. Scott/Lance/John, could we get that support at the public meeting on 1/10? Not sure if you're free John, but it would be good to have you there. (cc'ing Laura as the mc of events...)

Also Karl--Could you plan to put out some kind of short email/1 pager on what you can get behind on Jan 4 for iris? I think I saw something close to a solution from you on Wednesday, but I don't want to jinx it!

Happy holidays, all.

OK, I'll do the 10th. Let's invite Kern if he can go and he can go to Gasco too.

Wasn't planning on it, unless you think that's needed? I think you can cover the presentation, and I will help cover ?'s.... S

Oof, late, but whatever works best for you. Becky, me, Laura, but of course that could change to the RA coming down in a jiffy as you know...

Sean, Right now my flight gets in at 8:30... I may get an earlier one. Let me check.

Who's going to be there "in person"?

Thanks Karl. Anything else that you were looking for such that we're ready to go down the final chute towards the finish line tomorrow?

Also, I'll try to be in pdx by late in the day on Tuesday 1/9—we should catch up for a beverage, yes?

Happy new year!
